DEMOGRAPHICS

The London Borough of Hillingdon boasts a population of c.309,000 persons (2020) which is projected to rise to c.315,000 by 2024.

The town has a high proportion of younger adults between the age of 15-24 as well as an over-representation of 25-44 year olds.

Uxbridge is regarded as an affluent town. Over 73% of households within a 3km radius of the property fall within the most affluent Acorn household profiles, a 16% increase compared with their average prevalence across London. Of these households, the largest sub-category is 'Rising Prosperity - Career Climbers' - first time buyers in small, modern homes. This category comprises 14.7% of the households in this location, a significant increase against the London average of 4.4%.

Over 60% of households within a 3km radius of the property are owned (c.14,200), a 23% uplift versus base homeownership across London. A further 20.5% of households were privately rented (c.4,800).

This data demonstrates the opportunity for a town centre, apartment led development and its appeal to a prominent household type and occupier in Uxbridge.

### PLANNING CONTEXT

In 2019 an application (ref: 72722/ APP/2019/347) was submitted for the demolition of the existing office building onto Bakers Road, and the redevelopment of the eastern part of the Site to provide a new hotel, retail unit and restaurant together with the refurbishment of part of the existing car park and service area. View planning application.

The application was withdrawn in 2020 after Premier Inn decided to re-occupy the former Travelodge hotel on the opposite side of Bakers Road.

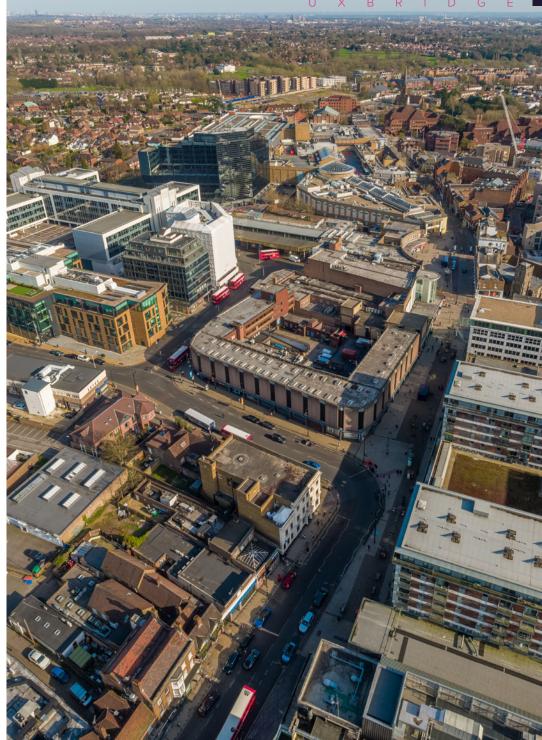

Whilst officers supported the principle of redevelopment, they were concerned that the partial redevelopment of the block would restrict the ability to redevelop the remainder of the site.

The site has an excellent PTAL rating of 6a.

The Site is allocated in Policy SA26 for a residential led mixed use development, based upon the following seven criteria:

- Provision of upper floor residential units, which must include affordable housing and an appropriate mix of units.
- Retention of ground floor retail uses fronting onto the High Street and provision of main town centre uses, providing active frontages onto Bakers Road and Belmont Road
- The redevelopment should enhance the pedestrian thoroughfare of Cock's Yard linking Uxbridge Town Centre and the Bus Interchange
- Amenity space and car parking should be provided in accordance with the Council's standards
- The redevelopment should sustain and enhance the significance of the adjacent Conservation Area and its setting
- Redevelopment proposals should reflect the scale and character of the surrounding townscape and have regard to the setting of Old Uxbridge and Windsor Street Conservation Area and Listed Buildings
- The proposals should provide scope to incorporate the redevelopment of the land to the south of the site

### PERMITTED DEVELOPMENT

The site could offer the opportunity for conversion to create approximately 50-65 dwellings under Permitted Development rights. This could take place through the creation of two new residential upper floors above the existing commercial space and also via the conversion of the existing office at Bakers House and the upper floor office accommodation fronting Belmont Road. The opportunity to create two floors of residential accommodation above the existing commercial could be secured by way of a Class AB application. Currently the office use has as an Article 4 Direction restricting permitted development and therefore any conversion of the office space may only take place from August 2022 under Class MA, where the Article 4 Direction is not extended by the Local Authority.

### BASE SCHEME

Gaunt Francis Architects feasibility scheme for **148-154 High Street** demonstrates a mid-rise scheme comprising:

- 212 dwellings
- 26,695 sq ft Class E accommodation
- **34** basement car parking spaces
- over 15,000 sq ft rooftop amenity space

### ENHANCED DEVELOPMENT

The Local Authority have indicated their support for comprehensive development. Against a backdrop of large commercial buildings, this High Street site presents an opportunity to increase the building heights and density shown in the base scheme, creating a mixed-use scheme of c.250 dwellings that positively enhances the town centre.

### WIDER MASTERPLAN

The wider masterplan illustrates the additional opportunity to create a vibrant, mixed-use quarter through the inclusion of the extended island site to the south of the subject property, between Cocks Yard and Bakers Yard.
